## UV-C STERILIZER INSTALLED FOR BUTTONS

Using elevator can cause health problems e.g. Covid-19, SARs & MERs because thousands of people touch it. The product improves hygiene by eliminating bacteria and viruses simply by attaching it to buttons. The sterilizer is installed on top of the buttons and shoots UV-C rays onto the buttons which kills germs, and pathogens!

### Features

- ★ **TouchSafe Wipes Out 98% Bacteria & Viruses**, it blocks any sources of infection from spreading by completely destroying the DNA of germs via UV-C light with radiant power of 10.0mW at 100mA and the total quality of light (30sec) is 5400  $\mu$ W.
- ★ **Harmless To Human Body**, since it does not use any chemicals or heavy metals.
- ★ **Easy Installation**, attach the small device, without making changes to the existing facility. **Actively, Continuously & Safely Being Disinfected.**
- ★ **Wireless Device** with no need for wired power supply. Relies on 2 x AAA Batteries, low power consumption.
- ★ **Performance & Safety**, approved by official institutions around the globe. CE certificate from the European Union and the KC certificate from Korea with regard to safety, environment, and health. Includes **Germical Power 98% Certification.**
- ★ **No-Noise** at all. Quiet operation.
- ★ **Sterilizing Power of Ultra-Violet Rays.** Sterilization process: 30 sec per every hour. UV Lighting angel (directivity) 70°.
- ★ **Safe & Practical Design.** Compact size and light weight of the product are minimized to prevent hindering with movement of people especially children.
- ★ **Easy Installation & Maintenance.** Installation is available through simple attachment, no need for additional management. No wiring or permanent installation required, therefore easy maintenance.
- ★ **UV-C Light Does Not Strain, Degrade or Damage** the existing buttons. Only live bacteria and viruses are targeted and eliminated by the UV-C exposure.

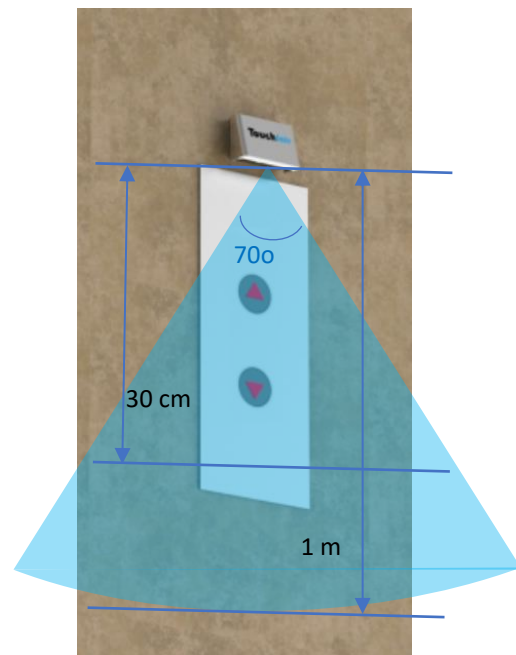

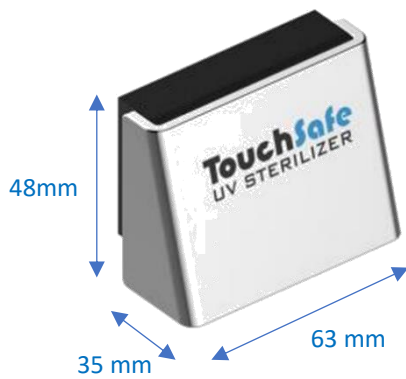

### Scope of Application:

## Technical Specifications:

Model	TouchSafe UV-C Sterilizer
	FB TouchSafe-01
Sterilization Process:	30 sec(on) UV-C on every hour
UV Lighting Angle (Directivity):	Typical 70°
Effective Range:	30cm after 30sec x 5 times
Radiant Power:	10.0mW at 100mA
Total Quantity Of Light (30sec):	5400 $\mu$ W
Power:	AAA Battery x 2
Size:	63mm x 48mm x 35mm
